**About Florida SHOTS**

**How do I get my COVID-19 vaccination records?**

To request your COVID-19 vaccination records:

1. **Ask your healthcare provider:** All providers administering vaccinations use or are connected to Florida SHOTS. Your provider should be able to access Florida SHOTS and generate your Immunization History from your records.
2. **Ask your local county health department:** If your healthcare provider is not participating in Florida SHOTS, then you can contact your nearest local county health department and request your immunization history from your records. All county health departments have access to Florida SHOTS.
3. **Submit your request directly to Florida SHOTS:** You can request your COVID-19 vaccination records directly from Florida SHOTS by filling out the Florida Department of Health form - DR-203 Authorization to Disclose Confidential Information form online, electronically sign and submit it.

To fill out the form online and submit, click here.

**Note:** This form is for use only by individuals aged 18 years and over to request their own COVID-19 vaccination record. DO NOT use this form to request records for another individual. Each individual is responsible for their own request. Currently, records of minors (aged 17 years and below) are not available through this request portal. Please contact your healthcare provider or local county health department to request records for minor.

Fill in all areas with **asterisk ** and submit with requested documentation. Can take between 10 days to 3 weeks.
